

Please note that our cm measurements differ from the Plae ones used on their website and the shoe box. The Plae cm measurements gives the size of foot that each shoe should fit whereas our measurements are the internal measurements of the shoe. For example for the EU24 size, Plae list as 15cm which is the size of foot the shoe will fit, we measure the shoe as 15.7cm which should suit a 15cm foot nicely.

Plae Tabs

The sizes below are the size of tabs used on the shoes and to choose if you want a like for like replacement in tab length. If you are looking to adjust the fit then you can adjust the size of your tabs to improve the fit. Size down a tab size for shallower feet needing a shorter length and size up a tab for higher insteps needing a longer tab.

- Small (for shoes up to EU25)
- Medium (for shoes EU26-30)
- Large (for shoes EU31-34)
- Xtra-Large (for shoes EU34 plus or higher insteps)
