What makes NUTRI-TEEN Bars different?

All our bars are 100% Natural, NUT AND GLUTEN FREE and completely free of any artificial colourings, flavourings, preservatives or additives and are suitable for Vegetarians.

Youth athletes are at a greater risk of nutritional deficiencies than the normal population, due to their training loads, busy schedules and rapid periods of growth. NUTRI-TEEN bars were developed by looking at the most difficult meal or snack times that youth athletes face. Finding a suitable pre or in-game snack is one of these occasions. NUTRI-TEEN bars are designed to compliment the PRO-TEEN range (which is designed to be taken after sport or as a meal replacement) so that you can now cater for before, during and after sport.

Kids skipping breakfast before early morning training? Then NUTRI-TEEN bars may be your answer.

Our bars are 100% natural, nut and gluten free. They're also free of any artificial flavourings, preservatives or additives and suitable for vegetarians.

Age Guide

As NUTRI-TEEN is a whole food bar, then these can be consumed by athletes of all ages. We recommend that they consume no more than one bar per day on days where their activity levels are high.
